

Find Y-Intercept For Linear Equation

$$(\underline{\quad}, \underline{\quad}) \quad \underline{\quad} X + \underline{\quad} Y = \underline{\quad}$$

$$(0, \underline{\quad}) \quad \underline{\quad} \cdot 0 + \underline{\quad} \cdot Y = \underline{\quad}$$

$$\underline{\quad} \cdot Y = \underline{\quad}$$

$$(0, \underline{\underline{\quad}}) \quad Y = \underline{\underline{\quad}}$$
