

Solve Quadratic Equation: Binomial Squared Equal to Constant

$$(X + \bigcirc)^2 = \text{pentagon}$$

$$\sqrt{(X + \bigcirc)^2} = \pm \sqrt{\text{pentagon}}$$

$$X + \bigcirc = \pm \sqrt{\text{pentagon}}$$

$$\underline{-\bigcirc} \qquad \underline{-\bigcirc}$$

$$X = -\bigcirc \pm \sqrt{\text{pentagon}}$$
